Pflege- und Wartungshinweise

- Vermeiden Sie direkte Sonneneinstrahlung.
- Saugen Sie Staub und Krümel vom Stuhl ab. Reinigen Sie das Bezugsmaterial nur mit Wasser und Seife (nicht zu nass) und vermeiden Sie aggressive Lösungsmittel. Lieber tupfen als reiben.
Für Leder: Vermeiden Sie aggressive und alkoholhaltige Lösungsmittel. Tragen Sie alle 3 Monate eine Lederpflege auf, um das Leder weich zu halten.
- Halten Sie die Rollen sauber.
- Ziehen Sie alle Schrauben und Bolzen alle 6 Monate nach.

Achtung

Nur geschultes Personal darf Komponenten der Sitzhöhenverstellung mit Energiespeicher (Gasdruckfeder und Rückenlehnenfeder) ersetzen oder reparieren.
